## **Fellowship in Rural Acute & Critical Care**

*Enhancing Practice ... Transforming Healthcare*

## Rural Acute Care:

Working in Rural Acute Care practice means to be proactive in doing many aspects of medicine yourselves, whether it be minor surgery or minor injuries work. It gives many opportunities to practice a wide range of different aspects of medicine. It gives you the opportunity to lead a big primary healthcare team working together. Your involvement in the community hospital means that care is much more personal amidst all the scarcity.

**It aims to build a competent and skilled workforce to address issues of acute and critical medical care in rural areas and supporting the Government of India's mission of Universal Health Coverage.**

## About the Course:

Fellowship in Rural Acute and Critical Care (FRACC) is designed to address the challenges incurred while practicing Acute Care in Rural settings. This is a structured program focused on the life threatening emergencies, their identification, management and safe disposition. The program revolves around following four core domains:

<b>Multidisciplinary Medical Education</b>	<ul style="list-style-type: none"><li>• Training Professionals from multiple discipline</li><li>• Several affiliated fine training programs</li><li>• Established Clinician Educators</li></ul>
<b>Clinical Simulation</b>	<ul style="list-style-type: none"><li>• Case Scenario based Learning experience</li><li>• Task trainers for procedural skills</li><li>• Certified Faculty</li></ul>
<b>Online Medical Library</b>	<ul style="list-style-type: none"><li>• Access the e- Library 24x7</li><li>• Supporting professionals with patient care decisions</li><li>• Latest guidelines &amp; protocols in hand</li></ul>
<b>Continuous e-Learning</b>	<ul style="list-style-type: none"><li>• Partnership from renowned foreign societies</li><li>• Access to online courses &amp; journals</li><li>• Learning on the GO</li></ul>
