1. Preparing for conformity assessment body (CAB) accreditation

In this document CAB means medical laboratory, testing and calibration laboratory, biobanks, PT Provider, Reference Material Producer and Inspection Body. CAB management should first decide about getting accreditation from QAI CIA. It is important for a CAB to make a definite plan of action for obtaining accreditation and nominate a responsible person to co-ordinate all activities related to seeking accreditation. The person nominated should be familiar with CAB's services, functions and existing quality system, if any.

A request can be made to QAI CIA Secretariat for procurement of relevant QAI CIA documents against the payment, if any. All documents are free downloadable except printed copy of standards and guidance book. CAB must procure a copy of the relevant standard (ISO 15189 or ISO/IEC 17025, ISO/IEC 17043, ISO 17034, ISO/IEC 17020, ISO 20387). A list of QAI CIA documents is given on the website under each programme and general documents. Clarifications on any document/ process may be obtained from QAI CIA Secretariat in person, by post, on telephone or through e-mail. The CAB get fully acquainted with relevant documents and understand the assessment procedure & methodology of making an application.

Before an application is made, it is required that CAB do the self-assessment using self-assessment cum management system documentation review tool to ascertain whether CAB fulfilling QAI CIA accreditation requirements, if find the gaps, take necessary measures to fill those gaps.

Relevant requirements for QAI CIA accreditation should be discussed amongst concerned staff of the CABs. This will enable them to understand their weaknesses and strengths. The CAB must ensure that policies, procedures and other documents for various sections/ departments and services being provided are available and implemented.

The CAB interested in going for accreditation should understand the QAI CIA assessment procedure and prepare accordingly.

The applicant CAB must comply with all clauses of ISO 15189: 2022 or ISO/ IEC 17025:2017 or ISO 20387: 2018 or ISO/IEC 17043:2023 or ISO/IEC 17020: 2012 or ISO 17034: 2016 whichever is applicable and relevant regulatory/ statutory requirements.

The applicant CAB must have filled self-assessment tool kit against ISO 15189: 2022 or ISO/ IEC 17025:2017 or ISO 20387: 2018 or ISO/IEC 17043:2023 or ISO/IEC 17020: 2012 or ISO 17034: 2016 before the submission of application. Self-assessment tool is a mechanism of ensuring compliance to standards by the CAB themselves and therefore it would be easier for the assessment teams to verify those compliances during assessments (on-site/ remote/
